COMPANY DESCRIPTION

Bundle Box is an online subscription box and gifting service that caters to multiple audiences. We here at Bundle Box believe that we can take the “if” out of gift! We can eliminate questions like “what if they don’t like the gift I bought?” “what if the gift I bought doesn’t ship in time” “what if the only gift I can find is too expensive?”. We partner with other companies in Virtual Enterprise to advertise their products by featuring them in our boxes. Additionally, we can provide Customer Market Demographics to other companies regarding how our customers respond to their products. We are able to bring both virtual gifts and business to other students participating in Virtual Enterprise. This platform simplifies gifting by providing expedited national shipping of our hand-selected, brand-name, and exciting, themed gifts FOR the customer!

Find us at bundlebox.wixsite.com/bundlebox for an easier way to gift.
