VE Connected, located at 1 Redmen Street, Islip Terrace, New York, was formed in September of 2013. In 2013, we started out as an online directory and an advertising magazine. In 2014, we continued as an S Corporation and hosted online trade shows. As of 2015, VE Connected evolved into the health bar and drink industry. Presently, we are progressing into the coffee industry and specializing in espresso while continuing as an S Corporation. Within the development of our company, we strive to help the widespread problem of people skipping breakfast. This results in having low energy and dullness throughout the day. We will provide a variety of vivacious flavors bringing you a simple, yet effective way to bring a boost to your morning on the go.
