Company Description

PORT is an innovative fashion company that is putting their city on the map with great designs featuring their hometown Northport, by using nautical themes on all our apparel. The virtual extension encompasses customizable clothing and accessories for schools, sports teams, and organizations internationally. Sales of tangible clothing and accessories available through Northport allow the company to grow physically and give back to the community. All departments within PORT work continuously to benefit their customers and increase sales. Going forward, we hope to add new products and services to increase accommodation.
