Company Branding

Logo

t a i l o r e d
t r o n i c s

Fonts

Merriweather

Merriweather is a very professional and legible font. It is also very accessible. It has more style than other fonts but does not distract the reader.

The quick brown fox jumps over the lazy dog.

Roboto

Roboto is a very straight and simple font. It is easy for the reader to comprehend because of its legibility. This font is also accessible.

The quick brown fox jumps over the lazy dog.

Dear Mr. White,

A letterhead is the heading at the top of a sheet of letter paper (stationery). That heading usually consists of a name and an address, and a logo or corporate design, and sometimes a background pattern. The term "letterhead" is often used to refer to the whole sheet imprinted with such a heading.

Many companies and individuals prefer to create a letterhead template in a word processor or other software application. This generally includes the same information as pre-printed stationery but without the additional costs involved. Letterhead can then be printed on stationery (or plain paper) as needed on a local output device or sent electronically.

A letterhead is the heading at the top of a sheet of letter paper (stationery). That heading usually consists of a name and an address, and a logo or corporate design, and sometimes a background pattern. The term "letterhead" is often used to refer to the whole sheet imprinted with such a heading.

Yours Sincerely,

Mr. Doe
