Abril Fatface Oswald

Courgette

Pt Mono MEGRIM **Montserrat** Lateef

Abril will be used for titles on documents and other professional mediums and Pt mono and Lateef will be used for larger bodies of text on most documents. Courgette will be used for the company name, with Megrin as the company's slogan font. Oswald and Montserrat will be used for headers and titles for the website as well as for other platforms seen directly by the consumer (such as the app).

Letterhead and Company Description

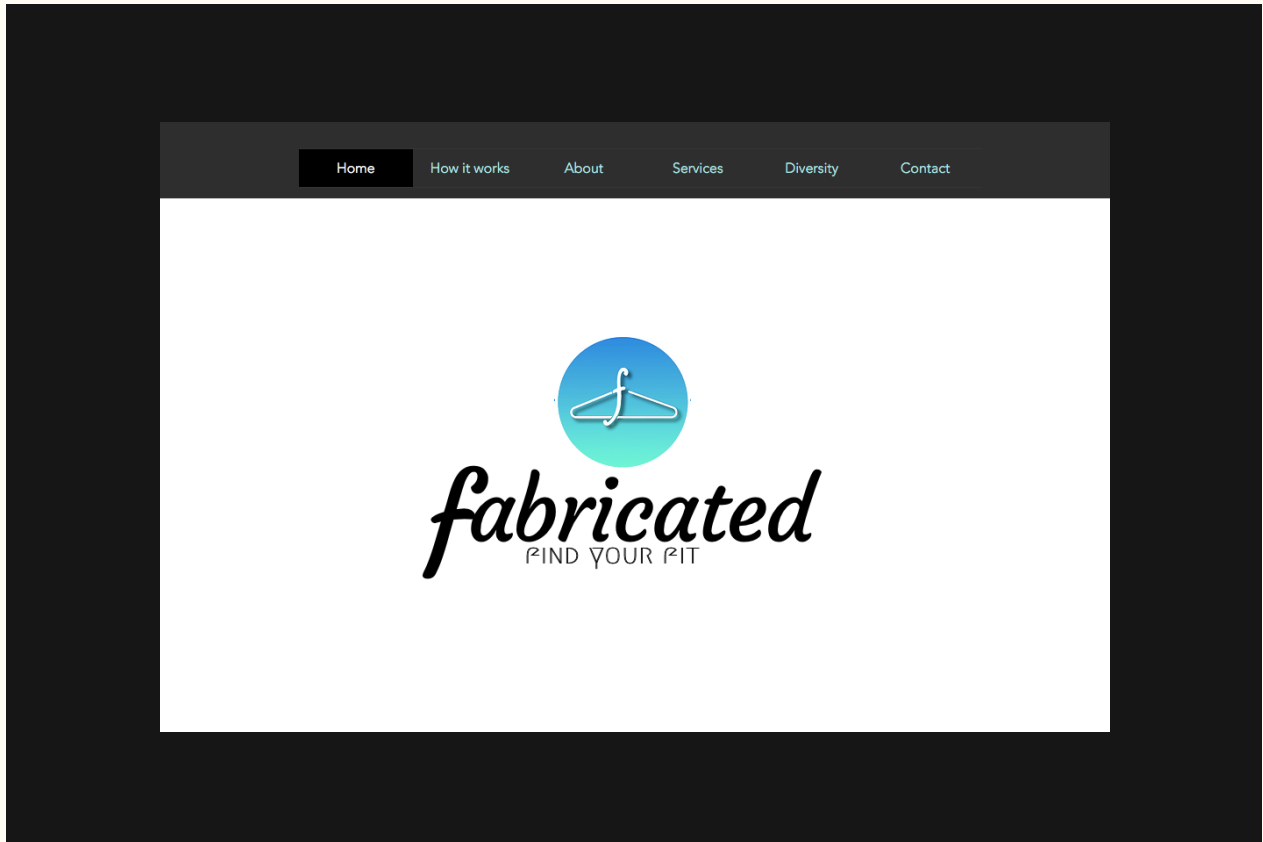

Fabricated is the ultimate social media fashion app! From teens to adults, the question of what to wear seems to be a daily struggle. With our app Fabricated, we can help solve this problem. By utilizing existing clothes of one's closet, our app can generate various outfit choices personalized for each consumer. How we can guarantee this outcome is with our consumers answering a few simple questions involving the occasion, and uploading individual pictures of their items. Additional features include: a message board where users of the app can share outfits and/or get outside opinions from friends, easy access to weather conditions of nearest location, as well as a public tab where users can upload photos of outfits created by Fabricated with it being open for people on the app to see. The way one dress can play a heavy role in confidence, self esteem, and performance, in helping others to find their voice and style in the fashion world is our goal.

FIND YOUR FIT

October 2, 2018

Dear...

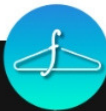

A letterhead is the heading at the top of a sheet of letter paper (stationery). That heading usually consists of a name and an address, and a logo or corporate design, and sometimes a background pattern.

The term "letterhead" is often used to refer to the whole sheet imprinted with such a heading. Many companies and individuals prefer to create a letterhead template in a word processor or other software application. This generally includes the same information as pre-printed stationery but without the additional costs involved.

Letterhead can then be printed on stationery (or plain paper) as needed on a local output device or sent electronically.

Sincerely,
