Big Apple Eats is a bagel and pizza company founded in 2019. The goal of Big Apple Eats is to bring the taste and quality of New York Food to you, whether you're a small business looking for an authentic New York taste, or a family enjoying a fun Friday night pizza dinner. We provide kits with authentic ingredients, from our signature dough, to the water sourced from the New York metropolitan/suburban region and instruction manuals, teaching you step by step how to make New York style bagels and pizza. It's an enjoyable and memorable experience for the kids and family, and a great way for small businesses to incorporate that Big Apple feel into their products.
