Company Brochure:

Air

Mopeds

A motorcycle with a scooter-based design that is accompanied by platform attached at the rider's feet. It's like a motorcycle but there is no need for a license!

Motorbikes

A two wheeled motorized bike, capable of transporting one or two people from one destination to the next. This product goes at exhilaratingly speeds with the power to keep up with cars on the road!

Land

Electric Skateboards

A longboard attached to a motor that uses a remote controlling all directions based on your desire. Has all the power of a normal skateboard but without the need to push yourself forward!

ATVs

A powerful four wheeled, off-road vehicle that can go on rough terrain. ATV's give the power of a car but can go on much more thrilling ground!

Water

Inflatable Boats

Boats that are inflated with air that allow you to navigate across bodies of water. This motorized boat can fit up to 3 people with endless fun on the water!

Water Jetpack

A brand-new way to enjoy transportation on large bodies of water with a wearable backpack the launches water at a high velocity that keeps the wearer in the air. This product brings loads of new fun to any beach and can bring endless fun!

Our Enterprise

We are an eco friendly vehicle and aeronautics company that strives to enable everybody to keep their environment healthy. We are committed to advancing technology in the clean energy vehicle industry, while keeping products accessible to everyone.
