The name Fits, short for outfits and youthful parlance for the trendily-dressed, represents distinction and balance. The S-corporation began its journey striving to be a catalyst in shifting modern fashion culture to one where people pioneered their own trends through sensible shortcuts to stylish individuality. More than a bottom-line centered enterprise, Fits established a company, not only passionate about fashion but also ethical and caring about its impact. Fits' mission aims to partner and support the do-it-yourself, fashion-conscious community by offering high quality tools, ideas, and incubators to style.
