We chose our fonts because we felt that they added a simple yet unique style.

Since our company is eco-friendly we decided to keep our fonts just like nature...simple yet beautiful.

Company Description

SAGOOD is an eco-friendly drive thru boba shop located in Vacaville, California. Our name comes from the word “Boba” in Tagalog combined with the word good, we chose this name because Solano County has the largest Filipino population in all United States counties. SAGOOD specializes in multicultural boba smoothies. All of our ingredients are gluten free, our straws are made from naturally resourced bamboo, and our cups are made from recyclable plastic. Our boba is SAGOOD you won't forget it!

Dear,

A letterhead refers to the heading at the top of a sheet of letter paper. It usually consists of a name and an address, or a logo. This often appears in letters created by companies and individuals for communicating messages, whether it's within the team, business partners, or with clients. Letterheads are important branding tools as well, as they are sent out to a wide audience. They can set the tone for messages while showcasing your company's expertise and professionalism. This makes it important for you to create a letterhead that captures your brand's identity while presenting important details. It helps to create a template that you can use for different occasions, from inter-office memos to customer correspondences.
