VE Security
105 North Church Rd.
Sparta NJ 07871

Oct. 9, 2019

To whom it may concern,

VE Security is a company that sells a variety of both standard and deluxe camera systems, a computer cleaner software, and two different types of antivirus software. Our target market is including but not limited to business owners, home owners, and schools. We are currently limited to domestic markets, as a barrier to entry would be too high in foreign markets. With our variety of products you will never go unprotected online or in real life.

Sincerely,

CEO, VE Security
Bill Hendershot
