# COMPANY OVERVIEW

## ABOUT US

Our app-based service connects customers with professionals who can provide numerous self care amenities such as haircuts, facials, makeup and other grooming services. We allow customers to register an account and connect with trusted self-care and salon certified freelance workers. We are focused on serving busy, and time stretched individuals, who desperately need an accessible and convenient way to look their best for their day to day lives, and even special events. Thorough background checks for our employees and documented customer interactions ensure that our company hold high standards for our workers and services. If our customers are not satisfied they can feel free to contact us at anytime. Customer satisfaction is our number one priority and we make sure to make this clear as we encourage customer feedback on our social media pages, through our app, our website, and through our business' email.
