Fad Factory is a new and upcoming online shop that sells the best trends over the past couple of decades. Fad Factory currently operates as a Limited Liability Corporation (LLC), meaning that the owners have limited accountability regarding the debts and/or actions of the company. The advantages of having a LLC outnumbers the disadvantages immensely seeing there is limited legal responsibility like any other company, while also avoiding double taxation in the process. Standard Industrial Classification categorizes Fad Factory as a "unconventional". Our current operations are active at 472 Pittsford Mendon Road, Pittsford, NY, 14534. Fad Factory is usually open from 1:41 – 2:20 est, Monday through Friday. However, Fad Factories website is always open to all parties all day, any day of the week. Our company offers a large selection of many different fads from many different eras. We believe that having motivated and happy employees makes for happy customers. At Fad Factory, its essential that our employees are motivated and prepared to put their share into the company every day, that way our customers will always be happy with our products and services. Our primary goal is our business profitable and appealing to our target market.
