TAKE THE ADVENTURE TASTE THE WORLD

Established in September 2017, Culture Crate specializes in providing customers with the most popular snacks from various countries around the world. We thrive on creating snack crates that will allow customers to visit a variety of countries with their tastebuds. With our location being in Santa Ana, California, and Orange County being an expansive business hub, we are able to easily ship our crates across the country and the world.

Culture Crate's legal structure is a Limited Liability Company (LLC). This will benefit us because it's better for tax purposes, we create our company's guidelines, there's limited liability, and it supports smaller business.

With the interest of subscription based companies increasing by 800% since 2014, we believe that it's time to take advantage of the growth of the subscription industry, while promoting cultural awareness.
