Company Description

Summit Design & Development offers well-crafted websites. We can also deliver web page support, company advertising, and graphic design that will accommodate all of our client's needs and wants.

Our Mountain Guides

Summit is a class of fifteen students from all the public high schools in Virginia Beach. We came together to form Summit Design & Development as one of the many virtual enterprise companies. We actually create your companies site, check out our work!

36. Summit Design & Development offers well-crafted websites.

About the fonts

Summit offers a modern feel with Quicksands and Montserrat as the primary and secondary selected fonts. The reasoning behind the fonts were to catch the eye from first glance with a polished and informative readable text.

Company Letterhead

Dear Company,

Summit Design & Development would like to take this opportunity to introduce ourselves as the top provider in web site development and graphics creation. Summit is very unique and differs from other virtual enterprises in the way that we will ***actually create a custom working website*** for your Virtual Enterprise.

You want to have a successful and growing business we can help make that happen. Visit our website to learn more at www.vevirginiabeach.org/atc-ve01

Sincerely,

Solomon Beddingfield

Sales Representative

What is Summit

Summit Design & Development offers well-crafted websites. We can also deliver web page support, company advertising, and graphic design that will accommodate all of our clients' needs and wants.

As a class of 15, our staff has come together from various ages and schools in Virginia Beach, Virginia. As part of our education in web design at the Advanced Technology Center, we learn how to apply web design skills by developing a simulation of a business. Summit Design and Development is a Virtual Enterprise simulation that makes websites for all types of companies. Summit will create your website, customized for your company!
