LETTERHEAD & COMPANY DESCRIPTION

Grow N' Go is a food and packaging company where our mission is twofold: to produce delicious trail food that keeps our customers energized, and packaging that food using our groundbreaking seed-paper based wrapping, which is unique in the industry for its ability to not just leave zero waste in the environment once discarded, but negative waste. That's right, when our seed paper is properly disposed of, a new plant will grow in its place, literally leaving the Earth better than we found it. Our seed paper can grow many different varieties of flowers. When compared to the environmental damage of our competitors standard plastic, which can take upwards of 500 to 1,000 years to degrade, the Grow N' Go difference is huge. By expanding to major retailers and supermarkets, soon outdoor enthusiasts everywhere will have the opportunity to stop, drop, and grow with Grow N' Go.
