Dramatic sales increase

At the beginning of January 2017 we predicted to sell roughly 2,000 popsicles, excluding bundles. As the company continues to grow, so does the amount of popsicles we sell. During the month of January, we have sold 2,500 popsicles. This has allowed 32 Below to maintain a constant stream of new customers and people who regularly purchase from the company. The amazing sales drive us to provide our customers with the best popsicle on the VE market.
