About Mamba Marketing

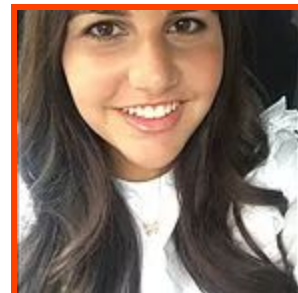

Mamba Marketing Consulting Services is a virtual business whose goal is to provide our customers with the best marketing service for their product and/or service. Companies not only come to us for advertise but to market their five P's for potential buyers. By providing the companies with great marketing, we are helping them develop. Our company is relatively new having just been established in September 2017, and is still en route to fully organizing ourselves and begin starting to market our services for other companies and fulfilling our mission and goals. Mamba Marketing is a C Class business. We chose this because if people sue or company, it only affects our company, not the employees. It also protects our investors.

Every month we reward a different employee with the *Employee of the Month Award* to show these special employees recognition and appreciation for their hard work and dedication to the company, goal, and class as a whole. Each month there is a different employee of the month, ultimately showing our gratitude to various members of our company, creating a friendly and family-like environment.

Below are the employees rewarded as *Employee of the Month* thus far.

October

Sophia Cohen
Office Manager

Upcoming Events:

November

Frieda Haber
Chief Marketing Officer

December

Joseph Levy
Chief Technology Officer

January

Max Soffer
Chief Financial Officer

Our next event is the **Youth Business Summit**, otherwise known as the VEI trade show. At this trade show the company will have the chance to socialize with fellow VEI company representatives, get the chance to advertise our company, make additional sales, and explore the VEI community as a whole.

Furthermore, our next company-wide event will be our party celebrating our achievements and recognizing our hard work. This party is not only a time to rejoice, but also spend quality time with our fellow employees creating true bonds, resulting in an enhancement of the company environment.

Company News:

We interviewed the C Level Directors from each section of the company and this is what we've discovered about their tasks:

Finance: "The highlights of our work this month have been; filling out employee tax forms, updating our monthly reports, and we get this done by working together with great time management skills."

-Max Soffer, our CFO

Administration: "We have began making our brochure, which we plan to show it to all potential buyers. Furthermore, we are in the beginning stages of working on the trade show, and figuring out all logistics."

-Morris Zarif, our CEO

Marketing: "We have been working on the commercial campaign in order to best brand our business and we have also been reaching out to potential clients."

-Frieda Haber, CMO

Marketing Trends:

Being a marketing company, our marketing team has to market our client's service. In the beginning, our new employees were getting the job done while learning. Now with the experience, we are marketing better than ever.
