Employees of the Month

Every month PROVELT selects an employee of the month. Our employees of the month are Emily E. (left) and Phoua Y. (right). They both have demonstrated hard work and are always on task. Their hard work and commitment to the company was not overlooked.

On January 16-18, 2018,

PROVELT's Competitions and Awards

PROVELT's trip to the Bakersfield Tradeshow did not leave them empty handed. PROVELT's departments of Finance, Human Resources, Advertising, and Marketing were all competing against other firms and their employees. PROVELT's efforts were well spent as their competitions for Human Resources, Impact Marketing, Sales Presentation, Elevator Pitch Presentation, E-Commerce Website, and Sales Materials were met with their fair share of praise by judges and received many awards for their efforts.

Sexual Harassment in the Workplace

PROVELT takes pride in the company and its employees; however, there is a matter that is very serious and should be discussed, sexual harassment.

What is sexual harassment? Sexual harassment is any unwelcome sexual advance or conduct on the job that creates an intimidating, hostile, or offensive working environment. Any conduct of a sexual nature that makes an employee uncomfortable has the potential to be sexual harassment. Given this broad definition, sexual harassment comes in many forms such as:

- A supervisor implies to an employee that the employee must sleep with him/her to keep a job.
- An employee sends emails to coworkers that contain explicit language and jokes.

To prevent sexual harassment, training will be on-going to teach PROVELT employees what sexual harassment is, explain that employees have a right to a workplace free of sexual harassment, review the complaint procedure, and encourage employees to be on their best behavior.

Work Place Fire Safety

Fire safety is an important workplace topic and we need to take responsibility to report any potential hazards.

Ways to Prevent a Workplace Fire:

- 1. Know PROVELT's company procedure.
- 2. Maintain machinery to prevent overheating and friction sparks.
- 3. Learn how to properly use a fire extinguisher.
- 4. Practice good work place housekeeping.
