**MEET THE COMPANY**

**CATCH UP WITH US**  
*By: Alexis Hines*

When we first came into the the company we had no idea what to do, the expectations, or positions we would be placed in. Yet we knew that making a candy packaging business was going to be a company we loved but also a company people would love. Now as of February of 2018 we have been striving to success. Every person in the company has ended up in the right job position to run this company. Channeily Gonzalez our CEO and Keissy Quezada our COO have done great things to improve our company every step of the way. Accounting Vice President Matthew Ma and accountant Dominique Durrant make sure we always get our weekly salary but they also multi task with every financial position in accounting to get work done. Graphic Designer Brian Jorge and Vice President of Graphics and Design created a beautiful logo and our astonishing website. Sales & Marketing Vice President Cashonee Wimbush and Sales Executive Alexis Hines help respond to our emails, make sales, and promote our products to different firms or events. Vice President of Human Resources Natalie Ramirez and Executive Assistant Jovana Guzman help us if we ever have a situation, make our calender's, business cards, and of course newsletters. So this is who N'idea is, a company who's fate was unknown but is now stronger than ever

**EMPLOYEE OF THE MONTH**

This month the department of Human Resources decided to make Keissy Quezada employee of the month. Since the start of the company she has been hands on with all of her responsibilities as COO. Yet with so many priorities to accomplish she still manages to have time to help her fellow employees and encourage them to work harder.

So what is so bitter sweet about chocolate you may ask?

Well.. Chocolate has been around for centuries giving us its beautifully flavored cocoa smell and taste plus we usually eat it when we cheat from our losing weight resolutions but there is a reason for that. Combining different flavors and textures in a product is a strategy to create indulgence in a product. For example having a combination of chocolate and walnuts gives it texture and a subtly different taste. So if you ever eat a Hershey Cookies & Cream or a Twix we start creating a habit of eating more often because it has these different feelings and taste when entering the mouth. So the next time you eat a Snickers or a M&M think about the tastiness and the sweetness chocolate gives you.

VALENTINE’S DAY BAKE SALE
By: Natalie Ramirez

On February 14, 2018 we will be having a bake sale at Jacqueline Kennedy Onassis High School to show some love around the building but ALSO give 10% percent of the earnings to a charity called Animal Welfare Institute where they help wildlife and household pets from either harassment, habitat destruction, and more. Let’s show them some love because everything deserves love.
